OFFICE OF PETITIONS

Sir:

REQUEST FOR RECONSIDERATION OF PETITION UNDER 37 C.F.R. § 1.47(a)

In a Decision Refusing Status Under 37 C.F.R. § 1.47(a) dated April 8, 2003, Applicants were informed by the U.S. Patent Office that the Petition Under 37 C.F.R. § 1.47(a) filed in this application on November 18, 2002 was deficient because it did not satisfy the requirement of an acceptable oath or declaration in compliance with 37 C.F.R. § 1.63. Specifically, the oath or declaration was determined to be non-compliant because changes made by inventor Neale A. Messina were not properly initialed and dated by Mr. Messina.

In response to the Decision Refusing Status, Applicants submit herewith a new Reissue Declaration executed by Neale A. Messina, a new Reissue Declaration

executed by Larry S. Ingram, and a copy of the previously filed declaration executed by Steven J. Brown. The new declarations of Messrs Messina and Ingram include alterations that have been properly dated and initialed. Please replace the previously submitted Reissue Declarations with the Reissue Declarations filed herewith.

In view of the above, Applicants request the reconsideration and granting of the Petition Under 37 C.F.R. § 1.47(a) filed in this application on November 18, 2002.

Please grant any extensions of time required to enter this response and charge any additional required fees to our Deposit Account No. 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
GARRETT & DUNNER, L.L.P.

Sir:

REISSUE DECLARATION UNDER 37 C.F.R. § 1.175

We, Steven Joseph Brown, Larry Stefan Ingram, Neale Arthur Messina and Marek Tarczynski, all citizens of the United States, with residences and post office addresses as listed below, do hereby state and declare as follows:

1. We believe we are the original joint inventors of the subject matter which is described and claimed in United States Patent No. 6,036,226, granted on March 14, 2000, and for which a reissue patent is sought on the invention entitled, "INFLATOR CAPABLE OF MODULATION AIR BAG INFLATION RATE IN A VEHICLE OCCUPANT RESTRAINT APPARATUS."

2. We hereby claim the benefit under 35 U.S.C. § 119(e) of provisional patent application no. 60/037,234, filed in the United States on February 3, 1997.

3. We hereby state that we have reviewed and understand the contents of the above-identified specification, including the original patent claims, and the claims in the Preliminary Amendment filed with the reissue application on March 1, 2002.

4. We acknowledge the duty to disclose information that is material to the examination of this reissue application in accordance with Title 37, Code of Federal Regulations, Section 1.56(a).

5. We believe U.S. Patent No. 6,036,226 to be, through error and without deceptive intent, at least partly inoperative by reason of our claiming less than we had a right to claim in the patent.

6. An error, which is a statutory basis for reissue, is that we unnecessarily limited the scope of patent protection to which we are entitled. Claims 1-38 do not cover the full breadth of our disclosed invention, and we erred by not pursuing during the original prosecution additional, broader claims, such as those filed in the Preliminary Amendment included with this application. For example, Applicants' patent protection need not be limited to an apparatus including a sensor, as required by independent claims 1 and 32, and Applicants' patent protection need not be limited to an apparatus including a housing as claimed in independent claim 14. These elements are not required in new claim 39, for example.

7. The above-described error and all other errors corrected in this reissue application arose without any deceptive intent.

8. We hereby declare that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false

statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
